SURGEON-GENERAL
OF THE ARMY

FOREWORD

The Silver Chey, published at the U. S. Army Base Hospital, Camp Grant, Illinois, by authority of the Surgeon General of the Army was published as a semi-monthly publication in magazine form for the purpose of representing interests of all persons on duty at this hospital and with a further purpose of furnishing persons interested in this hospital a record of events during the period of their Military Service. Owing to the great pressure of work this publication was not inaugurated until the first of April, 1919, at a time when demobilization had begun and conditions for the publication of the new paper were unfavorable. It was contemplated that publication would be continued for six months up to and including the issue of October 1919. Circumstances have arisen however, which make it necessary to discontinue publication with the issue of July 1919. The strength of the enlisted Detachment has been cut to less than half its number of three months ago. The graduate nurses have been greatly reduced in number. The reconstruction aide and student nurses have practically disappeared from our personnel. The number of officers is rapidly diminishing. In view of these conditions it becomes impossible to continue the publication of this newspaper.

To subscribers of the Silver Chey it is desired to transmit the information that a refund for the unexpired portion of their subscription may be obtained by writing to the Silver Chey and requesting such refund. All money not refunded to subscribers will be used in connection with the Base Hospital Exchange for the benefit for the enlisted personnel on duty at this hospital. These have been the purposes for which the Silver Chey was founded.

In saying farewell to its readers the entire personnel of the Base Hospital expresses through the Silver Chey its appreciation of the co-operation accorded it by the people and merchants of Rockford, by persons formerly on duty at this hospital and by those now on duty at this hospital.

The Silver Chey extends the best wishes of the Base Hospital personnel to all soldiers of the United States Army in the World War and wishes them the greatest possible measure of success whether they continue in the profession of arms or return to civil life.

Note: Deceased members of personnel are indicated in heavy-face type. (*) Indicates that soldier was commissioned; rank is not indicated.
